Preface

This electronic bibliographic guide to the Luczkiw Collection of publications by Ukrainian displaced persons (DP) and political refugees is based on a catalogue compiled by Yury Boshyk and Włodzimierz Kiebalo, published by the Canadian Institute of Ukrainian Studies, Edmonton, 1988.

In 2001, the University of Toronto Library finished microfilming the monographs in the Luczkiw DP Collection and subsequently created this finding aid as an index to the 86 reels of microfilm. The original catalogue was scanned, edited, indexed, and reformatted in electronic form. Some of the editing changes include the addition of see references, standardization of pseudonyms and abbreviations, and correction of any errors found in the original.

Bibliographic references for monographs and pamphlets are occasionally made to “Buchynskyj.” This refers to the book by Dmytro Buchynskyj, *Biblioteca Nacional, Exposición de la obra impresa Ucrainiana en la extranjero 1945-1955, Catalogo*. (Dirección General de Archivos y Bibliotecas, Madrid, 1956). Similarly, bibliographic references to serials are made to “Sworakowski.” This refers to a book compiled by Helen Sworakowski, *List of Periodical Publications Published by Belarusian, Russian, and Ukrainian DP's; 1945-1951: Holdings of the Hoover Library*. (Hoover Institution, Stanford University, Stanford, California, n.d.).

Acknowledgements

For nearly twenty years the following librarians – Dr. Wasyl Veryha, Luba Pendzey, Mary Stevens, Karen Turko, Luba Frastacky and Anne Dondertman – have worked to preserve this rare and important collection of Ukrainian publications. To them and all the staff of the Thomas Fisher Rare Book Library, the Preservation Services Department of Robarts Library, and the Petro Jacyk Central and East European Resource Centre, the University of Toronto Library expresses its gratitude for all their professional work in developing the Luczkiw DP Collection as a unique resource and making it accessible to all researchers.

John Luczkiw

1923-1974

About the Collector

The collection of the late John Luczkiw, acquired by the University of Toronto Library in 1982, reflects the life-long passion of its owner for book collecting.

Born in 1923 in Western Ukraine, Mr. Luczkiw pursued his early education under difficult circumstances complicated by several successive foreign occupations. Forced by the threat of Soviet invasion to emigrate to Germany, he studied engineering there and, in 1950, again emigrated – this time to Canada. He enrolled at the University of Toronto to complete his undergraduate studies and, in 1951, graduated with a B.A.Sc. in mechanical engineering. While still a student, he joined the Viceroy Manufacturing Company, a private Canadian firm, of which he eventually became executive vice-president.

His involvement in business did not, however, prevent him from pursuing his studies further and, in 1959, he was awarded an M.A.Sc. in nuclear engineering from the University, thus becoming one of the pioneers in the field in Canada.

Every moment of what little spare time he had was devoted to books. While still a student in Germany, he witnessed the establishment of the UNRRA camps for “Displaced Persons” (DPs) – i.e., those rendered homeless by the upheaval of World War II. Although he did not live in such a camp himself, he immediately developed close ties with the many fellow Ukrainian political refugees who did. He was impressed by their prodigious literary and publishing activity and was inspired to begin collecting all the materials he could find in order to preserve a record of their unique experience. When he came to Canada as an immigrant, the only possessions he brought with him were boxes full of these DP publications.

In Canada, he soon set about augmenting his collection with books, periodicals, even pamphlets and brochures that related to the period of the DP camps through book dealers and private individuals. His searches often led him far afield to various parts of the US, Europe, Argentina and Australia. His frequent trips on company business to cities such as Detroit, Chicago, New York, Boston, London and Munich, which also had sizeable Ukrainian émigré communities, allowed him to follow up a lead on a missing number of a serial publication or to make some new acquaintances among fellow bibliophiles. Even family vacations were planned to include a side-trip to an out-of-the-way collector. His daughter recalls a trip to Florida during which, “instead of the usual tourist spots, we visited musty garages lined with yellowing books and presided over by equally musty old book sellers.”

If there is one feature that stands out about the Luczkiw Collection, it is the meticulous and loving care, with which each and every book was collected, restored if necessary, and catalogued. Shelves containing the approximately 8,000-10,000 books in his possession lined several rooms and later even the garage of his home.

An extension of his passion for book collecting was his interest in bibliography. Among his numerous bibliographical works was a scrupulously annotated bibliography of all DP publications between the years 1945 and 1949, which was almost completed at his untimely death at the age of 51. This work is also part of the collection.

The University of Toronto was the natural choice to house the Luczkiw Collection. Not only has the University Library traditionally maintained a strong collection of Ukrainian materials, but Mr. Luczkiw, a long-time resident of Toronto, had always expressed the desire that the product of his efforts should ultimately find a place at the university of which he and both his children were alumni (Maria, 1972 and George, 1978), and it is through the efforts of his wife that this has been realized. The Luczkiw Collection is housed in the Thomas Fisher Rare Book Library and will help to make the University Library's Ukrainian holdings among the finest in Europe and North America.
