## **INTRODUCTION**

This catalogue has been compiled to assist scholars, students and the general public in accessing Central and East European newspapers in the collections of the University of Toronto Library. Most titles are included in the U of T online catalogue except those found in anthologies or special collections. Some difficulties in finding titles can be attributed to problems of transliteration, variant orthographies and different cataloguing rules. It is hoped that this catalogue will not only facilitate finding the newspapers but will also encourage users to research this rich collection of primary sources.

Current newspapers are located in the Petro Jacyk Resource Centre (PJRC). Back issues are placed in storage until they are bound or replaced by microfilm copy and can be retrieved upon request. Please contact PJRC staff in advance to arrange for the viewing of stored materials.

Also included is a list of special microfilm and rare archival newspaper collections.

An online copy of this catalogue can be found on the PJRC web site: <http://www.pjrc.library.utoronto.ca>. The online version will be updated on a regular basis to include the latest information on recent acquisitions and current holdings.
